

# INTEGRATED QUESTION SYSTEM (999IQS)

We can only stop Accountable Care if we know what STP Boards, Councils, Clinical Commissioning Groups are doing. So we need to find out, by attending meetings, mobilising our MPs and Councillors to find out and tell us, and using the May elections (if they're happening in your area) to put pressure on Councillor candidates to commit to oppose the STP/ICS.

- WHEN is the Integrated Care System (ICS) coming into play?
- HOW? WHO is running the ICS?
- Which organisations are involved?
- Where and when are they making decisions?
- What form of contract/alliance agreement/integration agreement is it using?
- What role are the Council's Scrutiny Committees playing
- Are they doing their duty to protect our services?

NHSE' idea of Integration is all about integrating MANAGEMENT...

WHAT is going to happen to: *FRONTLINE NHS AND SOCIAL CARE STAFF PATIENTS, FAMILIES & PUBLIC?*

- What is the ICS planning to CUT? (how else are they going to find efficiency savings"?)
- What restrictions to health and social care are they putting in place?
- How are they pushing the "self care" & "prevention" agenda?
- How are they "reconfiguring" GP and community health services?
- Does this mean that care is going to be FURTHER from home?
- What are staff and patient experiences as a result?
- What are your MPs and Councillors doing?

# QUACK QUACK !!

If it looks like an Accountable Care Model  
 If it sounds like an Accountable Care Model  
 It's probably an Accountable Care Model
